

PREFACE

This Manual is dedicated to the thousands of outstanding nurses in Florida, professionals and patient advocates one and all.

The members of my firm have spent hundreds of hours researching, compiling and writing the material contained in this book. I thank them all and I hope you find this Manual useful.

Statutes, regulations, forms, cases and other supplemental information referred to in a particular chapter may be located in a Chapter Appendix at the end of that chapter, in the Appendix to this Manual or at the Internet links referred to herein.

I would like to give specific thanks to Justin Patrou, who assisted me in completing this project after many years of effort.
